

Nu Flow re-lines pipes at home in Hyde Park

Location: Hyde Park, Sandton, Gauteng

Situation:

The home in Hyde Park was experiencing water damage due to down pipes that were leaking on the joints. The home owner called in a handyman to try and seal the joints, but the problem remained.

The home owner turned to Nu Flow for a better, more permanent solution.

Are you concerned about elbows & tees in pipes?

Nu Flow re-lining process can effortlessly get around 90 degree bends!

Solution:

Nu Flow South Africa first did a CCTV camera inspection to analyse the inside of the pipe and locate the problem areas. Nu Flow then used pull-in-place structural liners to re-line the pipes working from existing access points and therefore caused absolutely NO damage to the structural integrity of the home.

Nu Flow were able to do the job in less than a day saving the client time and money.

No mess, no noise, no damage!

The end result is a new pipe with-in the original pipe.
